S. D. KIRKPATRICK, *Editor*

Chemical & Metallurgical Engineering is the successor to *Metallurgical & Chemical Engineering*, which, in turn, was a consolidation of *Electrochemical & Metallurgical Industry* and *Iron & Steel Magazine*. The magazine was originally founded as *Electrochemical Industry*.

McGRAW-HILL PUBLISHING COMPANY, INC., NEW YORK CITY

Volume LI

January to December, 1944

GENERAL ALPHABETICAL INDEX

A

Acetic acid—Coconut shells used to make acetic acid ..... May 175
Acetyl benzoyl peroxide (A) ..... Dec. 138
Acetyl peroxide (A) ..... Nov. 138
Acetylene—catalytic oxidation of acetylene (A) ..... Sept. 203
Germany uses acetylene as fertilizer ..... May 175
Polymerization of acetylene (A) ..... May 200
Production 1943 (table) ..... Feb. 128
Black placed under allocation (N) ..... July 88

Adhesives:
Adhesive 77 for containers (A) ..... June 138
Makers of resin adhesives form association (N) ..... Feb 176
Plastic cement (A) ..... Oct 150
Price raised on soy meal for adhesives ..... May 86
Resin adhesives and the new plywood program (A) ..... Sept. 197
Synthetic adhesive (A) ..... Sept. 156
Synthetic rubber adhesives (A) ..... Sept. 156; (A) Oct. 150
Versatile adhesive (A) ..... Feb. 172
Adipic acid control ..... Nov. 88
Adsorption capacity in relation to hydrogen and metal cations (A) ..... Nov. 190
Advertising—soap advertising challenged (N) ..... Mar. 88
Agar—New Zealand increases production ..... Sept. 172
Agitator, side-entering (E.N.) ..... Apr. *126
Agricultural Adjustment Agency—lime peddler (N) ..... May 86
Air conditioning—psychrometric chart for conditioning problems. Edward Ledoux (P.N.) ..... Jan. *116

Alcohol:
Beverage alcohol limits (N) ..... Aug. 82
Bisulphite treatment for low grade alcohol for wines ..... July 101
Butadiene from alcohol (A) ..... Dec. 192
Controversy on alcohol ..... Jan. 84
Dried potatoes for industrial alcohol manufacture (N) ..... Apr. 84
Grain allotted for alcohol (N) ..... Feb. 86
Isopropyl alcohol forms (N) ..... July 88
Making alcohol from wood wastes. Jan. 84
More alcohol released ..... Dec. 88
Motor fuel alcohol in Brazil (table) ..... Feb. 219
Needs are forecast by Chemical Bureau (N) ..... June 80
New process for cooking grain mash for alcohol (N) ..... Feb. 178
Oleyl alcohol allocated ..... Aug. 86
Production of alcohol and solvents in 1943 ..... Feb. 118
Program for production revised (N) ..... May 163
Reconverting alcohol-from-flour production, Haywood, Emerson & Davis ..... Feb. *135
Requirements for 1945 ..... July 84
Rye as a raw material for alcohol (N) ..... Mar. 88
Sweet potatoes and wood waste for alcohol manufacture (N) ..... Apr. 84
Wood hydrolysis to become a source of war alcohol. Chapin Collins ..... July *100
Wooden rectification columns (A). Jan. 186
Aliphatic acids (A) ..... Nov. 140
Aliphatic amines—foaming tendencies of primary solutions (A) ..... Apr. 175
Aliphatic derivatives (A) ..... Sept. 152
Alkali cleaner for porcelain (A) ..... Aug. 140
Alkali fluoborates (A) ..... Mar. 142
Alkali steel cleaner (A) ..... Jan. 144
Alkalis—production of alkalis and chlorine 1921–1943 (charts) ..... Feb. 112

Aluminum:
Aluminum cutback and plans (N) Feb. 88
Alumina from alunite ..... Feb. 143
Alumina from clay (A) ..... Apr. 181
Aluminum pot lines closed ..... Jan. 86
Cost of alumina ..... Dec. 84
Data reviewed ..... Dec. 82
Four aluminum plants closed (N) ..... June 84
Lithium in aluminum alloys (A). Mar. 190
Pacific Northwest offers power and resources for industry—report. June *115
Postwar aluminum ..... Oct. 84
Supply of aluminum (A) ..... Apr. 178
Aluminum fluoride (A) ..... Apr. 142
Aluminum yarn (A) ..... Mar. 143
American Society for Testing Materials meeting (N) ..... Nov. 152
Ammonia—synthetic anhydrous ammonia 1943 (table) ..... Feb. 128

Ammonium Nitrate:
Hazards in handling ammonium nitrate as a fertilizer. R. O. E. Davis ..... Apr. 101
Preparation of ammonium nitrate for use as fertilizer (A) ..... Oct. 192
Sales plan ..... Jan. 84
Ammonium picrate—production for military explosive requirements. T. C. Gerber ..... Mar. *100
Anhydrous "hypo" (A) ..... May 154
Animals—products from animals ..... Oct. 96
Anti-freeze—increased for civilians (N) ..... Apr. 84
Control of anti-freeze ..... Dec. 88
Shift in anti-freeze (N) ..... July 84
Anti-oxidant (A) ..... Oct. 149
Argentina—bichromates from South Africa (A) ..... Nov. 160
Sulphur production doubled ..... Dec. 164
Arsenic—zinc arsenate used more widely in Sweden ..... May 174
Asbestos-glass textile (A) ..... May 167
Assn. of American Soap & Glycerine Producers meeting (N) ..... Feb. 180
Association of Consulting Chemists & Chemical Engineers meets (N). Nov. 153
Australia—large wood distillation plant (A) ..... June 150
Alcohol production ..... Dec. 168
New rayon textile plant (A) ..... Nov. 161

Awards:
John Wesley Hyatt Medal goes to S. D. Douglas (N) ..... May 163
Rubber industry award brings commendation and challenge. Dewey & Jeffers ..... Jan. *104

B

Bag closer (E.N.) ..... Jan. *126
Bag filler (E.N.) ..... Oct. *140
Bag, multiwall paper, for packaging rosin ..... Nov. *99

Barite:
British Columbia to produce barite .. Oct. 167
Products from barite ..... Oct. 95
Shortage affects barium chemicals (N) ..... Mar. 151
Bauxite—beneficiation of Arkansas bauxite (A) ..... Feb. 205
Bearing seal (E.N.) ..... Dec. *126
Belgium—use of sulphuric acid restricted ..... Feb. 186

Benzene:
Allotments cut ..... Oct. 88
Sulphonamide (A) ..... Apr. 145
Sulphonchloride (A) ..... Nov. 145
Benzine—cracking shale tar for benzine production (A) ..... Jan. 189
Benzyl cellulose (A) ..... Jan. 142
Benzyltrimethylammonium chloride (A) .. Jan. 138

Bins:
Bin discharger (E.N.) ..... Aug. *126
Bin gate (E.N.) ..... July 125
Sugar bin. Dan Gutleben ..... Oct. *169
Bismuth—supplies of bismuth ..... Oct. 88
Blackout remover (A) ..... Apr. 140
Bleaching—St. Regis Paper successfully bleaches groundwood. J. A. Lee ..... Aug. *106
Bleaching powder 1943 (table) ..... Feb. 128
Blower, motor driven (E.N.) ..... Mar. *128

Book Reviews:
Advanced quantitative analysis. Willard & Diehl ..... Apr. 194
Analytical chemistry of industrial poisons, hazards and solvents. M. B. Jacobs ..... Dec. 220
Ancient and medieval dyes. W. F. Leggett ..... Sept. 211
Aviation gasoline manufacture. Matthew Van Winkle ..... Apr. 194
Bernard Baruch. Carter Field ..... Dec. 219
Basic mathematics for engineers. Andres, Miser & Reingold ..... Aug. 190
Basic mathematics for war and industry. Daus, Gleason & Whyburn. Aug. 190
Bibliography of solid adsorbents. V. R. Deitz ..... Oct. 203
Brazil on the march. M. L. Cooke .. Nov. 193
Calculus refresher for technical men. A. A. Klaf ..... Aug. 190
Cellulose and cellulose derivatives ed. by Emil Ott ..... June 186
Chemical engineering nomographs. D. S. Davis ..... Aug. 187
Chemical engineering thermodynamics. B. F. Dodge ..... June 185
Chemical front. W. S. Haynes ..... Aug. 187
Chemical machinery. E. R. Riegel .. Nov. 193
Chemistry made easy. C. T. Snell & F. D. Snell ..... Feb. 226
Chemistry of cellulose. Emil Heuser ..... Oct. 199
Chemistry of natural coloring matters. Fritz Mayer ..... Aug. 189
Chemistry of synthetic substances. Emil Dreher ..... June 185
Colloid chemistry ed. by Jerome Alexander ..... Oct. 199
Colorimetric determination of traces of metals. E. B. Sandell ..... Sept. 209
Control of electric motors. P. B. Harwood ..... Oct. 203
Dana's system of mineralogy. Charles Palache & others ..... Dec. 219
Dry box purification of gas with an annotated bibliography. G. E. Bell ..... Jan. 192
Electronic interpretations of organic chemistry. A. E. Remick ..... Mar. 195
Emulsion technology, theoretical and applied, including symposium on technical aspects of emulsions. Mar. 195
Engineers' dictionary. Spanish-English and English-Spanish. L. A. Robb ..... Apr. 193
Ergebnisse der vitamin und hormonforschung. Bredereck & Mittag .. Dec. 219
Experimental spectroscopy. R. A. Sawyer ..... Oct. 201

NOTES—(A) Abstract; (c) Comment; (ed) Editorial; (E.N.) Equipment News; *Illustrated; (N) News; (P.N.) Plant Notebook

Explosions, their anatomy and destructiveness. C. S. Robinson..Sept. 208
Extrusion of metals. C. E. Pearson..Dec. 220
Fighting oil. H. L. Ickes.....Aug. 187
From a chemist's diary. Roy Cross July 189
Hackh's chemical dictionary ed. by Julius Grant .....Aug. 187
Handbook of chemistry ed. by Lange & Forker, Burington.....Aug. 187
Illustrated technical dictionary..June 185
Industrial chemistry. W. T. Read..May 205
Infrared spectroscopy—industrial applications and bibliography. R. B. Barnes & others.....July 189
Introduction to ferrous metallurgy. E. J. Teichert.....Oct. 204
Laboratory manual of explosive chemistry. Olsen & Greene.....Sept. 209
Laboratory manual of plastics and synthetic resins. G. F. D'Alelio.... Sept. 210
Magnesium. E. V. Pannell.....July 189
Magnetochemistry. P. W. Selwood.. Sept. 208
Manufacture and fabrication of steel. E. J. Teichert.....Oct. 204
Materials handbook. G. S. Brady..Dec. 220
Materials and processes ed. by J. F. Young .....July 190
Mechanical properties of metals and alloys. J. L. Everhart & others..Apr. 193
Metallography and heat treatment of steel. E. J. Teichert.....Nov. 196
Microscope and its use. Munoz & Charipper .....May 206
Modern synthetic rubbers. Harry Barron .....May 205
Modern wood adhesives. T. D. Perry Sept. 210
More acids and bases. David Davidson & others.....Oct. 202
Organic chemistry. L. F. Fieser & Mary Fieser .....Nov. 194
Organic chemistry of sulfur. C. M. Suter .....May 205
Outlines of physical chemistry. F. H. Getman .....Mar. 196
Patent law. C. H. Biesterfeld....Jan. 191
Phosphates and superphosphates. A. N. Gray .....Oct. 198
Photomicrography, theory and practice. C. P. Shillaber.....Sept. 207
Physical chemistry of electrolytic solutions. Harned & Owen.....Aug. 189
Physico-chemical methods. Reilly & Rae .....Nov. 193
Plastic catalog .....Mar. 195
Plastic horizons. Weil & Anhorn..Sept. 207
Principles and applications of electrochemistry. H. J. Creighton.....Feb. 225
Principles of physical metallurgy. F. L. Coonan .....Feb. 227
Principles of powder metallurgy. Franz Skaupy .....Sept. 207
Proceedings of American Gas Association, 1943 .....Nov. 194
Pyrotechnics—civil and military. C. W. Weingart .....Apr. 193
Quantitative analysis. Booth & Damerell .....Nov. 195
Quantitative chemical methods for engineering students. Smith & Sheerar .....July 189
Science at war. G. W. Gray.....Feb. 225
Science of explosives. Martin Meyer Sept. 207
Short course in quantitative analysis. Willard, Furman & Flagg.....Apr. 194
Soil and plant analysis.....Oct. 200
Standardization of volumetric solutions. R. B. Bradstreet.....Oct. 200
Survey of general and applied rheology. G. W. Scott Blair.....July 190
Synthetic resins and rubbers. P. O. Powers .....May 205
Systematic inorganic chemistry. Yost & Russell, Jr. .....July 189
Technical data on plastic materials.. Feb. 225
Ternary systems. G. Masing.....Dec. 219
Theoretical chemistry. Samuel Glasstone .....Dec. 222
Tool steels. J. P. Gill & others...Nov. 196
Trees and test tubes. C. M. Wilson Jan. 191
Tungsten, its history, geology, ore-dressing, metallurgy, chemistry, analysis, applications and economics. K. C. Li & Chung Yu Wang....Jan. 191
Varnish constituents. H. W. Charfield .....Oct. 199
Vegetable fats and oils. G. S. Jamieson .....Nov. 195
Wood chemistry ed. by L. E. Wise.. Oct. 204
Bonding agent for lead foil (A).....Jan. 140
Boron in ceramics (A).....Mar. 190

Brazil:
Babassu and castor oils.....Mar. 155
Cauassu wax produced.....Jan. 161
Chemical engineering college to be constructed .....Dec. 164
Citric acid output increased.....Aug. 153
Five rayon plants operate in Sao Paulo Mar. 157
Flat glass to be made.....Feb. 186
Postwar industrial Brazil (A)...Feb. 226
Refrigeration used as aid in sericulture .....Aug. 154
Vitamin oils industry developed (A) June 150
Brewing—continuous cooking of cereal grains flowsheet, Seagram & Sons.. Oct. *142
Briquette plant (A).....Nov. 142
Buildings—see Plant construction

Butadiene:
Butadiene from alcohol (A).....Aug. 80
Plants closed temporarily (N)....July 145
Production of butadiene from alcohol (A) .....Dec. 192
Butyl alcohol—amendment to MPR-37 issued .....Jan. 88
Butylene glycol—postwar chemical or new source for butadiene? J. R. Callaham .....Nov. *94

C

Caffeine solubility (A).....Oct. 195
Calcium acetate 1943 (table).....Feb. 128
Calcium arsenate 1943 (table).....Feb. 128
Calcium carbide 1943 (table).....Feb. 128
Calcium hypochlorite, true 1943 (table) Feb. 129
Calcium phosphate, monobasic 1943 (table) Feb. 129
Camouflage enamel (A).....June 136

Canada:
Flaxseed moved through Great Lakes Jan. 161
Vegetable oil plant under construction Mar. 156
Canary Islands—new sulphuric acid plant Jan. 160

Carbon Black:
Production in 1944 (A).....Sept. 88
Restrictions on carbon black.....Aug. 86
Sales of carbon black in 1943 (N).. June 144

Carbon Dioxide:
How solid carbon dioxide assists in grinding low-melting waxy or plastic solids. T. B. Dorris (P.N.)..July 114
Liquid and gas 1943 (table).....Feb. 129
Rotary kiln gases as a source of carbon dioxide. Ralph Gibbs.....Apr. *166
Carbon monoxide syntheses (A).....May 201
Carbon remover (A).....May 151
Carbon tetrachloride—Allocation order... Feb. 90
Carboy dispenser (E.N.).....Dec. *128
Casein fibers blended with rayon (A).Aug. 143
Cattle feed compound (A).....June 136
Caulking compound (A).....Aug. 158
Caustic soda—chlorine industry plans for markets in postwar pentad—report Aug. *115
Production of caustic soda in 1921—1943 (charts) .....Feb. 112

Cellulose:
Cellulose derivative (A).....Apr. 138
Cellulose esters (A).....Mar. 192
Cellulose ethers (A).....Nov. 198
Hydroxyethyl cellulose (A).....May 155
Structure of cellulose (A).....July 184

Cement:
Acidproof cement (A).....Dec. 138
Determination of alkali metals in portland cement (A).....Sept. 202
Free lime in cement (A).....July 182
Iron cement (A).....Apr. 140
Synthetic cements (A).....Sept. 154
Vulcanizing cement (A).....Sept. 155

Ceramics:
Boron in ceramics (A).....Mar. 190
Ceramic composition (A).....Mar. 139
Non-metallic materials (table). Sept. 131
Cereal and grain products.....Oct. 97
Ceylon—copra and coconut oil production (A) .....June 151

Chemical Engineering:
Chemical engineering yesterday, today, tomorrow (charts) .....Feb. 96
Chemical engineers in war and postwar industry—report .....Mar. *119
Classification of chemical engineers.. Apr. 113
Our civic duties (A).....May 191

Chemical Industry:
Chemical industries (A).....Aug. 175
Chemical industries as the basic growth industry of the future. Smith & Palmer (tables).....Oct. *115
Markets for chemical industry are shifting .....Apr. 113
Postwar opportunities in chemical process industries—symposium..Feb. 102
Technical service (A).....May 196
U. S. production, consumption and stocks of chemicals (tables) Feb. 128, Mar. 210, Apr. 152, May 218, July 205, Aug. 203, Oct. 219, Dec. 238
U. S. production, consumption and stocks of organic chemicals (tables) Apr. 153, July 206, Sept. 226, Nov. 208, Dec. 240
War industry to step up capacity of plants (A) .....Feb. 205

Chemical & Metallurgical Engineering Reports:
Chemical engineers in war and postwar industry .....Mar. *119
Chlorine industry plans for markets in postwar pentad.....Aug. *115
Filtration in the chemical process industries .....Jan. *117
From mine, farm and forest—tomorrow's industries .....Oct. *93
Government disposal of surplus stocks and facilities .....Apr. *117
Latin America plans postwar industrialization .....July *117
Materials of construction.....Sept. *93
Pacific Northwest offers power and resources for industry.....June *115
Paints and varnishes—recent advances with postwar promise.....Nov. *119
Production, application and transfer of heat .....May *97
Small industry must plan now to survive postwar changes .....Dec. *118
Twenty-first annual review and forecast .....Feb. 96
Chemical Warfare Service is in there fighting. W. N. Porter.....Apr. *102 July 206
Chemurgy as a basic industry. O. E. May Oct. *102
Chicago Chemical Exposition.....Nov. *113
Chile—match industry uses imported chlorate .....July 155
Match production increases (A)...Nov. 160
China—postwar China and American engineers (A) .....Sept. 199
Industrial minerals in postwar China (A) .....Dec. 194
Trade law for postwar guidance..Dec. 168

Chlorine:
Chlorine industry plans for markets in postwar pentad—report...Aug. *115
Chlorination procedures in the laboratory (A) .....July 178
Electrolytic chlorine plant, West Virginia (picture feature).....Jan. 110
Government chlorine plants.....Sept. 84
Production of chlorine 1943 (table) Feb. 129
Chlorine dioxide generator (A).....June 173
Chlorine dioxide process (E.N.)....June 124
Chlorophosphate process for dicalcium phosphate (A) .....Feb. 213
Chrome green production 1943 (table). Feb. 129
Chromium—production in Brazil (A). Sept. 205
Chromium, trivalent (A).....Mar. 142
Circuit breaker (E.N.).....Dec. 127
Citric acid allocation order.....Mar. 90
Citrus oil terpenes as solvents (A)....Jan. 189
Cleaner for floors (A).....Aug. 140
Cleaner for porcelain (A).....Aug. 140
Cleaner, solvent emulsion (A).....Mar. 139
Cleaning compound (A).....June 135
Clothing, rubber (E.N.).....Apr. 128
Clutch, friction (E.N.).....Apr. *128
Coal—special coals conserved (N)....May 87

Coatings:
Anti-rust compound (A).....Jan. 137
Ceramic type coatings (A).....May 156
Coating resin (A).....Oct. 154
Cork impregnated coating (A)....Feb. 168
Films of synthetic materials (A)..June 181
Non-skid walkway coating (A)..June 136
Plastic coating (A).....Jan. 137
Protective (A).....May 151; (A) Oct. 155
Protective coatings allocation procedure approved .....June 86
Rubber coating (E.N.).....June 126
Coffee—utilization of coffee (A).....May 189
Cobalt—new cobalt deposit found in Spain (N) .....Apr. 158

Coke and Coal Products:
British exporters of coal-tar products look for larger postwar markets in United States .....Nov. 157
British research aimed at larger use of coal as raw material for chemicals .....July 151
Coal products .....Oct. 95
Coal tar ceiling exemptions.....Feb. 90
Fischer-Tropsch process for coal hydrogenation needs building.....Jan. 84
Removal of sulphur compounds from coke oven gas by Thylox process flow sheet .....July *130
Sulphur removal and recovery from coke oven. N. G. Farquhar....July *94
Synthetic fuels from coal. J. L. Marsh & others .....June *107
Correction. R. D. Glenn.....Aug. 149
Columbia—new tire plant (N).....Nov. 153
Committee for economic development is devising plans for postwar (N) Jan. 147
Communication system (E.N.).....June 122
Concrete breakers (E.N.).....July *122
Concrete coating (A).....Aug. 142
Connectors, flexible (E.N.).....Dec. *128
Construction. See Plant Construction
Consumption of chemicals 1931-1943 (table) .....Feb. 128

Containers:
Demoting de luxe packages (ed)..Mar. 115
Glass container (A).....Jan. 137
Glass containers increasing.....Sept. 86
Glass container quota order amended Oct. 88
More metal containers for use this year (N) .....Feb. 179

Contracts:
Cancellation clauses (N).....Mar. 88
Contract termination (N).....May 87
Renegotiation of 1943 contracts completed (N) .....Feb. 88
Settlement of claims under contract termination (A) .....Oct. 182

Controllers:
Controller (E.N.) .....June *128
Electronic controller (E.N.)....Jan. *128
(E.N.) Dec. *127
Electronic flow control (E.N.)...Aug. *128
Evaporative cooler control (E.N.)... Sept. 150
Interfacial level control in extraction columns. Smith & Funk (P.N.)... Apr. *116
Liquid level controller (E.N.)....Jan. 127
Photoelectric level control prevents overflow of storage tanks. T. A. Beck (P.N.) .....Mar. *116

NOTES—(A) Abstract; (c) Comment; (ed) Editorial; (E.N.) Equipment News; *Illustrated; (N) News; (P.N.) Plant Notebook

Process timing instrument (E.N.)... Sept. *150
Synchronous motor control (E.N.)... Apr. *128
Temperature controller (E.N.)...July *127

Conveyors:
Belt type conveyor (E.N.).....July *126
Conveyor idler (E.N.).....Nov. 126
Hydraulic conveyors. W. G. Hudson... Oct. *148
Mass handling conveyor (E.N.)..June 124
Pneumatic conveyor design. W. G. Hudson .....Feb. *147
Technical analysis of the belt conveyor. W. G. Hudson.....July *101
Copper—copper for condensers—Limitation Order .....Mar. 90
Copper coating (A).....Sept. 152
Copper ammonium fluoride (A)....Apr. 138
Copper sulphate to be produced by Argentina .....Oct. 167
Cork substitute (A)...Jan. 149; (A) Feb. 168
Cork impregnated coating (A).....Feb. 168
Corn—corn-hog controversy (N)...Apr. 86; (N) May 82
Products from corn.....Oct. 96
Corn borer killer (A).....May 154
Cornstarch (A) .....Feb. 170

Corrosion:
Anti-rust compound (A).....Jan. 137
Carbon flue dispersal and control of corrosive gases (P. N.) .....Dec. *117
Corrosion experiences in chemical process industries .....Sept. *94
Corrosion resistance of metallic materials of construction (table)..... Sept. 107; cont. Oct. 124
Corrosion resistant materials (E.N.) Jan. 126
High pressure corrosion. D. C. Meigs (c) .....Feb. 191
Inhibitors (A) .....Mar. 187
Lining flotation cells with maple flooring solves a difficult corrosion problem. L. D. Anderson (P.N.) ..Oct. 135
Liquid piston for pumping corrosive liquids. L. T. Burke (P.N.)...Apr. *116
Process equipment on wheels for flexibility—corrosion resistant materials. J. A. Putnam .....Jan. *98
Rust inhibitor (A).....Oct. 152
Cotton—cotton products .....Oct. 97
Cotton, flame-proof (A) .....Mar. 140
Cotton linters production restricted for OCC .....Aug. 86
Cottonleather (A) .....Aug. 141
Coumarone emulsion (A) .....July 137
Coupler, simplified (E.N.).....Sept. 149

Couplings:
Flexible coupling (E.N.).....Nov. *126
Metal hose (E.N.).....Sept. *150
Crushing—how solid carbon dioxide assists in grinding low-melting waxy or plastic solids. T. D. Dorris (P.N.) .....July 114
Cryptostegia from Haiti provides rubber. A. Lee.....Jan. *108
Cuba—blackstrap from sugar.....Aug. 153
Refractory chromite output.....Aug. 152
Cyanide Allocation Order.....Feb. 90
Cyclohexane, pyrolysis of (A).....May 195

D

Degreasing solvent (A).....June 135; (A) Sept. 152
Detergent (A) .....Apr. 142
Dicalcium phosphate produced by chlorophosphate (A) .....Feb. 213
Dichloro-diphenyl-trichlorethane fights insects. J. R. Callaham.....Oct. *109
Dilatometer (E.N.) .....July *128
Dimethylethanolamine (A) .....Nov. 145
Disinfectants—quaternary ammonium disinfectants (A) .....Apr. 175
Dispersion mills (A) .....Dec. 212

Distillation:
Distillation and rectification (A)...Mar. 171
Fibrous glass used in packing alcohol columns .....Feb. *144
Molecular distillation; a new path to separation of chemicals. T. R. Olive .....Aug. *100
Drugs—Merck & Co. fine chemicals in mass production. J. R. Callaham... Jan. *94

Drums:
Drum carrier (E.N.).....Nov. *128
Drum opener (E.N.).....Jan. *126
Lifter for drums (E.N.).....Apr. *128
Fiber shipping drums.....Nov. 88
Steel shipping drums restricted by Limitation Order .....Jan. 88

Drying:
Compact dryer (E.N.).....Dec. *128
Country's largest spray dryer producing resin powders .....Feb. *152
High-vacuum drying for penicillin. J. R. Callaham .....Apr. *94
Small capacity spray dryer (E.N.).. Aug. *124

Dust and Fume Handling:
Dust suppressor (E.N.).....Aug. *126
Industrial dust collector (E.N.)...Apr. 127
Steam or water ejector used for dust elimination. W. A. Welch (P.N.) Mar. 117

Dyes:
Acetate dyes (A).....Dec. 137
Dyestuffs and pigments Conservation Order .....Oct. 88
Dyestuff solvent (A).....July 138
Fluorine compounds in organic syntheses. G. C. Finger.....June 101
Luminescent pigments (A).....Mar. 175
Paper coloring (A).....Mar. 171
Plastic dye (A)...Jan. 138; (A) Sept. 154
Water soluble dye (A).....Oct. 152

E

Ecuador—soap industry makes progress... May 174

Editorials:
An inside story from Los Angeles. Mar. 114
Attracted by progress.....Nov. 117
Leo Hendrik Baekeland, 1863–1944.... Mar. 115
Big questions about little business... June 91
Buyer beware .....May 136
Cartel before the horse?.....Aug. 113
Conserve chrome .....Sept. 139
Container incentives .....June 113
The cost that counts.....Sept. 139
Cotton vs. rayon.....Oct. 137
Current fashions in research.....Oct. 137

Dusts for killing grain weevils (A) .. Jan. 183
Insecticide (A) .....Jan. 138
Insecticide dusts (A) .....Mar. 139
Insecticide for typhus (A) .....Mar. 142
Insecticide-fungicide (A) .....June 135
Insecticide materials (A) .....Oct. 88
More aerosols promised (N) ....Mar. 86
Over-effective insecticide .....June 82
Pesticides (A) .....Jan. 137
Peru turns out a new insecticide .. Sept. 173
Problems of insecticides (N) ....May 80
Restrictions on insecticides .....Jan. 82
Rule for fluorine residue on fruit (N) .. June 144
Thiocyanate insecticide (A) .....May 160
Toxic agent for insecticides (A) .. May 152

Insulation:
Ceramic wire insulation (A) ....Nov. 142
Glass fiber insulation (A) .....Aug. 141
Insulation for electrical equipment (e) .. Nov. 125
Latex insulation (A) .....Sept. 152
Synthetic insulating resins (A) ..Sept. 155
Insulator (A) .....Dec. 142
Iron alloys—improvement in acid-resisting silicon iron alloys (A) .....Oct. 189
Isoprene derivatives (A) .....Apr. 191
Italy—chemical plants to open in southern Italy .....May 174

J

Jamaica may make alcohol from bananas .. Feb. 187; Mar. 157
Japan to build paper mills in Indochina .. Sept. 171

K

Ketone motor fuels (A) .....Mar. 191
Kilns—rotary kiln gases as a source of carbon dioxide, Ralph Gibbs ..Apr. *106
Kneading machine (E.N.) .....Jan. *127
Kerosene for shoe sole (A) .....Nov. 144

L

Labor:
Child labor rules (N) .....May 80
Civilian morale (A) .....July 174
Collective bargaining; does it conflict with engineering ethics? Z. G. Deutsch .....Aug. 96
The indispensables (N) .....May 84
International trade viewed by American labor (A) .....July 180
Manpower affects MRO (N) .....May 84
Manpower shortage (N) .....Feb. 86
Occupational deferments (A) .....June 82
Seven serious sins .....Apr. 113
Laboratory priority .....Apr. 88
Lacquer protective coating (A) .....May 154

Lactics:
Lactic acid manufacture (A) ....Jan. 185
Lactic acid—40 percent of production to the armed forces .....Sept. 88
Rubber from lactic acid (A) .....May 158
Landis, Walter Savage, 1881-1944 (ed) .. Oct. 137

Latin America:
Land of engineering opportunities, W. F. Huppke .....Apr. 99
Organic chemicals, their postwar foreign markets, J. N. Taylor..Apr. *109
Planning postwar industrialization—report (tables) .....July *117
Lead arsenate, acid and basic 1943 (table) .. Feb. 130
Lead fluoborate solutions (A) .....Apr. 137
Lead foil bonding agent (A) .....Jan. 140

Leather:
Oil treatment of sole leather (N) ..July 82
Tanning agent (A) .....Apr. *127
Tanning materials (A) .....Sept. 88
Tanning operations in Southern Rhodesia .....Sept. 172
Lens cleaner (A) ..Jan. 137 (E.N.) Sept. *149
Lighting—cold cathode light (E.N.) .. June 124
Lignum-vitae wood for processing applications, J. R. Callaham .....May *129
Lime—AAA supplies lime (N) .....May 80
Limestone—products from limestone, Oct. 94
Liquid feeder, constant-rate, Clyde McKinley (P.N.) .....Apr. *115
Liquid flow splitter (E.N.) .....Dec. *127
Liquid viscosity estimated from pressure drop data, D. S. Davis (P.N.) .. Feb. *155
Lithium production developed (A) ..Dec. 200
Logarithmic means calculated, M. T. Sanders (P.N.) .....Dec. *116

Lubrication:
Degreasers allocated .....Mar. 90
Lubricant (A) .....Apr. 144
Lubricating oil (A) .....June 135
Plug cock grease (A) .....Aug. 136; (e) Nov. 127
Silicone fluids (A) .....Aug. 136
Viscometry (A) .....Jan. 186
Lucite, heat-resistant (A) .....Dec. 140
Lupinine from anabasine mixture (A) .. Apr. 190

M

Magnesium:
Carbothermic magnesium production flow sheet .....June *128
Cuts in magnesium production (N) .. Apr. 82
How magnesium is used .....May 96
Kaiser's stake in the magnesium industry, S. D. Kirkpatrick..June *104
Magnesium chloride from dolomite (A) .....Dec. 196
Magnesium from minerals flow sheet May *142
New chemical technology applied to manufacturing magnesium, Manning & Kirkpatrick .....May *92
No cutback (N) .....Feb. 88
Production of calcium and magnesium (A) .....Aug. 177

Maintenance:
MRO ratings put on same basis (N) .. Mar. 84
P-89 revision .....Feb. 90
Priority plans modified (N) ....Feb. 84
Malt—continuous cooking of cereal grains flowsheet, Seagram & Sons..Oct. *142
Manufacturing Chemists' association meets (N) .....June 143
Mat, steel safety (E.N.) .....Dec. *127
Matches—match company formed in Panama (N) .....Apr. 153

Materials handling:
Loading stringers on to two post type anodizing racks (P.N.) .....Dec. *117
Making equipment do double duty by putting it on wheels, O. A. Putnam Jan. *98
Pneumatic conveyor design, W. G. Hudson .....Feb. *147
See also Conveyors, hoist
Mercaptoethanol (A) .....July 138
Mercuric chloride Army stocks to be liquidated (N) .....Apr. 150

Materials of construction:
Corrections and additions .....Dec. 154
Corrosion experiences in chemical process industries .....Sept. *94
Corrosion resistance of metallic materials of construction (table) ..... Sept. 167; cont. Oct. 134
Directory of metals for chemical engineering equipment (table) ....Sept. 101
Material substitution list .....May 86
Materials of construction for chemical engineering equipment (table) .Sept. 96
Non-metallic materials (table) ..Sept. 131
Process equipment on wheels for flexibility, O. A. Putnam .....Jan. *98
Structural materials for use in aircraft construction (A) .....May 149
Metal cellulose glycollate (A) .....Mar. 139
Metallizing gun (E.N.) .....Nov. 126

Metals:
Directory of metals for chemical engineering equipment (table) ..Sept. 101
Metal powder processes (A) .....June 178
Scarce metals now "easy" .....Jan. 86
Stockpile money (ed) .....Jan. 93

Meters:
Boiler meter (E.N.) .....June 124
Dilatometer (E.N.) .....July *128
Electrical tachometer (E.N.) .....Nov. 128
Flowmeter (E.N.) .....June 125
Main line meter (E.N.) .....July *125
Manometer, electric (E.N.) .....July *128
Manometer for flow-rate measurement, Clyde McKinley (P.N.) .....Apr. *115
Method for orifice design computations, A. E. Kroll (P.N.) .....May *140
Rotameter (E.N.) .....Sept. *140
Rotameter conversion chart for gas weights and volumes, D. S. Davis (P.N.) .....Oct. *135
Rotameter conversion chart for liquid weights, D. S. Davis (P.N.)..Aug. *123
Substituting a temperature recorder for a flow recorder for steam, A. H. McKinney (P.N.) .....Nov. 118
Using valve in pipe line as a flow meter, A. E. Kroll (P.N.) ....July *114
Methanol, natural, production 1943 (table) Feb. 130

Mexico:
Alcohol production increased .....May 175
Exports of oilcake and meal increased Sept. 173
New calcium carbide plant .....Feb. 187
Potassium chlorate scarce (A) ...Nov. 160
Mica—glass-bonded mica (A) .....July 143
Microscope, electron (E.N.) .....July *127
Mildew proofing compound (A) .....Mar. 142

Minerals:
Mineral and chemical raw materials and industries of fourteen Midwestern states, P. D. V. Manning (table) Oct. 108
Minerals program (N) .....Feb. 84
Stockpile legislation (N) .....Mar. 88
Mines, American, and chemical process industries (chart) .....Oct. *94
Mitt, industrial (E.N.) .....Jan. 126
Mixing—explosive mixer (E.N.) .....Jan. *128
Portable mixer (E.N.) .....Jan. *125
Model—miniature chemical plant of transparent plastic, H. F. Reichard (P.N.) .....Aug. *114

Molasses:
Cuban agreement on molasses (N) .. Mar. 86
Ethyl alcohol from molasses (A) .Sept. 190
Purchase made for alcohol manufacture (N) .....Feb. 86

NOTES—(A) Abstract; (c) Comment; (ed) Editorial; (E.N.) Equipment News; *Illustrated; (N) News; (P.N.) Plant Notebook

Reconverting alcohol-from-flour production. Haywood, Emerson & Davis ..... Feb. *135
Molder, continuous (E.N.) ..... Dec. *125
Molder, injection (E.N.) ..... Dec. *126
Molding press (E.N.) ..... Dec. *126
Molybdate orange production 1943 (table) ..... Feb. 134

Motors:
Air motors (E.N.) ..... Apr. 127
Heavy-duty motor (E.N.) ..... Dec. *126
Motor incher (E.N.) ..... Jan. 125
Protected motor (E.N.) ..... Mar. *128
Sealed motor (E.N.) ..... Mar. *129
Motor generator set (E.N.) ..... July *126

Munitions:
Chemical Warfare Service is in there fighting. W. N. Porter ..... Apr. *102
Record of wartime chemical production and costs ..... July 102

N

Naphthenic acid demand (A) ..... Sept. 88
Naphtha shortage ..... May 86
Naphthas and solvents under price control ..... Mar. 90
National Fertilizer Association meets (N) ..... July 145

Natural Gas:
Freezing of hydrates in natural gas line reduced by alcohol injectors (P.N.) ..... Feb. 155
Products from petroleum and natural gas ..... Oct. 95
Shortage of natural gas (N) ..... Mar. 86
Neoprene—neoprene production flowsheet ..... Jan. *126
New Zealand—wax from peat ..... Mar. 157
Nickel plating steel wire (A) ..... Feb. 208
Nitric acid production 1943 (table) ..... Feb. 139
Shipments cut off from chemical users ..... Sept. 82

Nitrogen:
Postwar utilization of government synthetic ammonia plants (chart) (E.) Oct. 120
Production of fertilizers in 1941–43 (charts & table) ..... Feb. 114
Nitrogen dioxide—absorption spectra of nitrogen dioxide (A) ..... Feb. 220
Northwest—Developments that aid Western pulp industry ..... Dec. *96
Nozzle, flat-spray (E.N.) ..... Mar. *129
(E.N.) ..... Oct. *139
Nozzle, injector type (E.N.) ..... Jan. *126
Nut for blind attachments (E.N.) ..... Nov. *128
Nylon molding powder (A) ..... Jan. 137

O

Oil heater (E.N.) ..... Dec. 127
Oil tester (E.N.) ..... Jan. *126
Oil and grease absorbent (A) ..... Apr. 142

Oils and Fats:
Anda-assu drying oil (A) ..... June 183
Babassu oil (A) ..... Oct. 196
Fatty acid inventories ..... June 86
Forms for oils and fats ..... Nov. 88
Lard and pork fat restrictions removed ..... June 86
Linseed oil produced in Argentina (N) ..... Apr. 159
Metal-working oil (A) ..... Nov. 144
Mexico produces oil from monillo seed ..... Oct. 187
No edible oil for paint or varnish thinners ..... Apr. 88
Oiticica oil Food Distribution Order ..... Feb. 90
Palm oil in Belgian Congo (N) ..... Apr. 158
Production of oils and fats 1941–43 (table) ..... Feb. 125
Research of tall oil and sulphate turpentine (A) ..... Mar. 180
Saponified red oil sales (N) ..... July 88
Synthetic lubricating oils (A) ..... Jan. 188
Tallow and grease regulated by WFA (N) ..... July 88
WFA oils and fats regulations ..... Aug. 86
Orange products flowsheet ..... Sept. *142

Organic Chemicals:
Organic chemicals and reagents (A) ..... Dec. 138
Postwar foreign markets for organic chemicals. J. N. Taylor ..... Apr. *109
Production of synthetic organic chemicals in 1939–40, 1941, 1942 (tables) ..... Feb. 120
U. S. production, consumption and stocks synthetic organic chemicals 1941—43 (table) ..... Mar. 208; Apr. 153; July 206; Sept. 228; Nov. 208; Dec. 240
Overseas Digest ..... Apr. 148

P

Pacific Coast—generating capacity planned for the Pacific Coast. J. W. Beckman (E) ..... July 140
Pacific Northwest—power and resources for industry—report ..... June *115

Packaging:
Multiwall paper bags for packaging rosin ..... Nov. *99
Protective packaging (A) ..... Mar. 140
Scarcity of packaging materials (N) ..... Feb. 84

Paints:
Ammonium ferrous phosphate in paint finishes (A) ..... May 188
Calcium carbonate pigment (A) ..... Apr. 140
Chrome pigments Allocation Order ..... Feb. 90
Heat resisting paint (A) ..... Oct. 150
Larger output of some pigment materials (N) ..... June 145
Linseed for paints ..... May 86
Luminescent pigments (A) ..... Mar. 175
More oil for paint (N) ..... Mar. 84
Paint brush restorer (A) ..... May 151
Paint plasticizer (A) ..... Apr. 143
Paints and varnishes—recent advances with postwar promise—report ..... Nov. *119
Paintbrush restorer (A) ..... Jan. 137
Phosphorescent pigments (A) ..... Aug. 141
Pigments restricted ..... Dec. 88
Terpene solvents from citrus oils (A) ..... Jan. 189
Palestine—chemicals from citrus peelings ..... Jan. 161
Paraffin, chlorinated (A) ..... Feb. 168
Chlorinated paraffin ..... Nov. 88

Patents:
Patents and monopoly ..... Jan. 84
Patent reform and control of cartels among British reconstruction problems ..... Apr. 154
Patent work as a field for chemists (A) ..... May 192

Penicillin:
Large-scale production of penicillin by deep fermentation. J. R. Callaham ..... Apr. *94
No more penicillin plants (N) ..... Apr. 86
Output climbs ..... Mar. 105
Producing penicillin mold (A) ..... May 188
Production of penicillin by deep fermentation flowsheet ..... Apr. *130
Wartime growing pains of the industry. Elder & Monroe ..... Mar. *102
Pentachlorobenzene (A) ..... Nov. 138
Pentaerythrite production started in Sweden (N) ..... Apr. 158
Percentage tolerances analyzed. W. E. Patte (P.N.) ..... Mar. 117

Perchlorate:
Continuous electrolytic process for perchlorate. J. C. Schumacher ..... Dec. *108
Potassium perchlorate flowsheet ..... Dec. *130
Peroxide, acetyl benzoyl (A) ..... Dec. 138
Peroxide, barium (A) ..... Mar. 192

Peru:
Barium chloride consumption doubled (A) ..... Dec. 164
Hydroelectric project under way ..... Sept. 171
Imports citric and tartaric acids (A) ..... Nov. 160
New chemical production ..... Oct. 166
New insecticide ..... Sept. 173
No surplus guano ..... Jan. 162
Sulphuric acid consumption ..... May 175
Tire factory in Lima uses native rubber ..... Apr. 157

Petroleum:
Advancements in petroleum (A) ..... Mar. 173
Brazilian petroleum (A) ..... Dec. 214
Butane dehydrogenation (A) ..... Aug. 171
Catalytic cracking process (A) ..... Feb. 207
Chart for proportioning two liquid or gas streams. J. W. Russell (P.N.) ..... Aug. *114
Chlorinated olefins (A) ..... Aug. 183
Cracking-coil tubes (A) ..... Jan. 181
Petroleum fuel oils (A) ..... Dec. 190
Petroleum reserves ..... Apr. 112
Petroleum solvents order amended ..... Aug. 86
Postwar potentialities (A) ..... Dec. 208
Products from petroleum and natural gas ..... Oct. 95
Raman spectrum of isoprene (A) ..... Feb. 219
Studies in emulsion polymerization (A) ..... Oct. 187
Synthetic toluol from petroleum by hydroforming process. Fischer & Welty, Jr. ..... Aug. *92
Unsaturated silico-organic compounds (A) ..... Aug. 184

Pharmaceuticals—Merck & Co., producer of fine chemicals in mass production. J. R. Callaham ..... Jan. *84

Phosphates:
Phosphate rock feed made (A) ..... Sept. 86
Products from phosphate rock ..... Oct. 94
World market (N) ..... Aug. 86
Phosphorescent pigments (A) ..... Aug. 141
Phosphoric acid production 1943 (table) ..... Feb. 131
Phosphorus compounds (A) ..... Jan. 140
Photographic film output increased (N) ..... Nov. 154
Photometer, ultra violet (E.N.) ..... Mar. 127
Phthalic anhydride not allocated in full ..... Aug. 86
Phthalic anhydride to be manufactured in California ..... Sept. 166
Pine oil allocated ..... Apr. 88; June 86
Pine tar allocated ..... May 86

Pipes:
Chart for water flow rate from end of pipe. D. S. Davis (P.N.) ..... June 123
Fiber pipe standards formulated (N) ..... July 84
Incompressible vs. compressible flow in pipes. R. C. Binder ..... June *88
Orifice design computation chart. A. E. Kroll (P.N.) ..... May *140
Pipe lining material (E.N.) ..... Mar. *127
Porcelain pipe and fittings (A) ..... June 175
Predicting flow-friction data for sludges. J. D. Parent ..... Jan. *101
Revolving joint from pipe and fittings. W. L. Bulkley (P.N.) ..... Jan. *115
Piping conduit (E.N.) ..... Dec. *126
Plant construction—reconditioning wartime structures. C. A. Harwick ..... Mar. *106
WPB issues conservation Order L-41 and Direction 15 to CMP Regulation No. 5 ..... Jan. 88

Plant Notebook:
Arc welding a patch on an acid tank ..... June *123
Calculation of logarithmic mean of two numbers. M. T. Sanders. Dec. *116
Carbon flue dispersal and control of corrosive gases ..... Dec. *117
Chart for proportioning two liquid or gas streams. J. W. Russell ..... Aug. *114
Chart for water flow rate from end of pipe. D. S. Davis ..... June 123
Cleaner for oil filters. P. H. Lawrence ..... Aug. *123
Constant-rate feeders for process liquids. Clyde McKinley ..... Apr. *115
Device for smoothing flow from a feeder pump. George Tauth. Aug. *123
Gas freezing reduced by alcohol injectors ..... Feb. 155
High-low alarm for acid tanks. J. F. Furrh ..... Mar. *118
How solid carbon dioxide assists in grinding low-melting waxy or plastic solids. T. B. Dorris ..... July 114
Hydrometer box uses as a slide rule blank. Peppard & Davis ..... Apr. *114
Improved bypass gives better filtration when using a centrifugal pump. W. A. Welch ..... June *114
Interfacial level control in extraction columns. Smith & Funk ..... Apr. *115
Lining flotation cells with maple flooring solves a difficult corrosion problem. L. D. Anderson ..... Oct. *135
Liquid piston for pumping corrosive liquids. L. T. Burke ..... Apr. *116
Loading stringers on to two post type anodizing racks ..... Dec. *117
Method of controlling composition of three-component plant solutions. G. M. Andrews ..... Jan. *114
Miniature chemical plant of transparent plastic. H. F. Reichard ..... Aug. *114
New chart facilitates humidity calculations. D. P. Weisberg ..... July *116
New method of photoelectric level control prevents overflow of storage tanks. T. A. Beck ..... Mar. *116
Nomograph for analyzing percentage tolerances. W. E. Patte ..... Mar. 117
Nomograph for finding purging time. Hooks & Kerze, Jr. ..... July 116
Pneumatic level gage from pipe fittings. J. F. Furrh ..... Apr. *116
Rapid method of determining moisture in wood chips. M. G. Lyon ..... Mar. *118
Reading friction factors from a log-log slide rule. D. S. Davis ..... July 115
Revolving joint from pipe and fittings. W. L. Bulkley ..... Jan. *115
Rotameter conversion chart for gas weights and volumes. D. S. Davis ..... Oct. *135
Rotameter conversion chart for liquid weights. D. S. Davis ..... Aug. *123
Sight glass design eliminates breakage by improved method of sealing. W. F. Caldwell ..... Dec. *116
Simplified method for orifice design computations. A. E. Kroll ..... May *140
Simplified non-equilibrium method for the rapid calibration of thermometers. J. H. Welgand ..... Feb. *154
Slide rule nomograph useful for calculations by untrained operating personnel. J. A. May ..... Sept. *137
Source of cold water in small quantities. R. N. Johnson ..... Dec. 117
Substituting a temperature recorder for a flow recorder for steam. A. H. McKinney ..... Nov. 118
Tank gage for liquids of varying density. J. M. Roebuck ..... Nov. 118
Total heat featured in psychrometric chart ..... Jan. *116
Using an ejector for dust elimination. W. A. Welch ..... Mar. 117
Viscosity estimated from pressure drop data. D. S. Davis ..... Feb. *155
Plant reconversion—see Reconversion
Plants—insurance plants for security purposes needed (A) ..... July 172

Plasticizers:
Plasticizer (A) ..... May 151; (A) July 138
Plasticizers for making rainproof clothing (A) ..... June 181
Resin plasticizer (A) ..... Apr. 138
Resinous plasticizer (A) ..... Dec. 142
Rubber Plasticizer (A) ..... May 155; May 159
Softener and plasticizer (A) ..... Apr. 137
Substitute for plasticizer (A) ..... Apr. 138

Plastics:
Cellulose plastics (A) ..... Sept. 194
Dichlorostyrene (A) ..... Oct. 148
Dyer from plastics made by the British ..... Jan. 158
Fibrous plastic (A) ..... Sept. 191
Fire resistant nitrocellulose (A) ..... June 136
Floor matting of plastic (A) ..... Oct. 150
Heat stability features new group of silicone resins ..... Aug. 109
Hot forming micarta (A) ..... Sept. 158

How solid carbon dioxide assists in grinding low-melting waxy or plastic solids. T. B. Dorris (P.N.)..July 114
Inter-relationship of plastics and chemicals. J. W. Raynolds...Mar. *109
Laminated plastics sheeting (A)..June 138
Lucite, heat-resistant (A).....Dec. 140
Manufacture of plastics to provide outlet for British coal derivatives ..... May 170
Market analysis; chemicals for rayon and cellulose and plastics. G. D. Rieber (charts & tables).....July 97
Miniature chemical plant of transparent plastic. H. F. Reichard (P.N.) ..... Aug. *114
Molding compound (A)..... Sept. 157
Non-metallic materials (table)...Sept. 131
Nylon molding powder (A).....Jan. 137
Pacific Northwest offers power and resources for industry—report...June 122
Phenolic molding compound (A)..Jan. 137; (A) Dec. 138
Plastic coating (A).....Jan. 137
Plastic dye (A)...Jan. 138; (A) Sept. 154
Plastic foam (A).....Nov. 142
Plastic resin board (A).....Apr. 142
Polymers and copolymers (A).....Nov. 178
Polythene plastic (A).....Feb. *167; (A) Aug. *136
Post-forming laminate (A)..... June 136
Predicting flow—friction data for sludges in plastic flow. J. D. Parent ..... Jan. *101
Production of plastic materials in 1943 .....Feb. 117; June 146
Recent developments in cellulose and lignin plastics (A).....Nov. 181
Sealing compound (A).....Sept. 159
Self-sealing plastic (A).....Sept. 152
Sweden uses furfurol in making plastics .....May 172
Thermoplastic (A)...July 138; (A) Oct. 156
Transition phenomena in high polymers (A) .....Sept. 196
Window screens of plastic (A)...Apr. 138
Electrolytic tin plate (A).....Jan. 184
Plating steel wire with nickel (A)... Feb. 208
Platform, novel skid (E.N.).....Dec. *125
Platinum metals for technical use (A)... Oct. 196
Plywood tubing (A).....Sept. 155
Pneumatic conveyor design. W. G. Hudson ..... Feb. *147
Polarographic apparatus (A).....May 199
Polychlorpropane liquid (A).....Jan. 141
Polysaccharide degradation (A).....Apr. 189
Porcelain enamel finish (A).....July 137
Portugal—sulphur output used in vineyards .....June 156

Postwar Planning:

British government plans reduction of industry controls in postwar period ..... Aug. 151
Chemical engineers in war and postwar industry—report .....Mar. *119
Chlorine industry plans for markets in postwar pentad—report...Aug. *115
Committee of scientists and officers named to plan postwar research (N) ..... July 145
Education comes first in our postwar planning .....Feb. 98
Engineering education (A).....June 176
Galvanizing industry in postwar (A) ..... Oct. 186
Government disposal of surplus stocks and facilities—report (tables). Apr. *117
Latin America plans postwar industrialization—report .....July *117
Organic chemicals, their postwar foreign markets. J. N. Taylor...Apr. *109
Paints and varnishes—recent advances with postwar promise—report. May *119
Petroleum developments (A).....Dec. 208
Postwar military research (ed)...Oct. 136
Postwar models vs. pilot plants (ed) ..... Sept. 138
Postwar opportunities in chemical process industries—symposium..Feb. 102
Postwar opportunities in consulting and professional work—symposium ..... Feb. *108
Presidents of engineering societies present program for Germany's postwar economy (N).....Oct. 157
Raw material supplies offer problem in British chemical postwar planning .....Sept. 168
Reconditioning wartime structures. C. A. Harwick .....Mar. *106
Small industry must plan now to survive postwar changes—report. Maj. A. G. Noble.....Dec. *118
Training for reconstruction (N)...May 82
Utilization of government synthetic ammonia plants after the war (charts) .....Oct. 120
Various factors will affect postwar demand for American chemicals in British markets .....Oct. 163

Potash:

Allocations of potash increased...June 86
American potash industry meets its wartime test (A) .....Oct. 188
New Mexican potash drilling planned (N) .....Mar. 86
Production of fertilizers in 1941–43 (charts & tables).....S...Feb. 114
Products from potash.....Oct. 94
Potassium bichromate and potassium chromate 1943 (table).....Feb. 131
Potassium chlorate—Continuous electrolytic process for perchlorate. J. C. Schumacher .....Dec. *108
Potassium chloride—Utah desert yields potassium chloride. H. R. Smith ..... Dec. *94
Potassium hydroxide production 1943 (table) .....Feb. 131
Potatoes—dried potatoes for industrial alcohol manufacture (N).....Apr. 84
Sweet potatoes for alcohol manufacture (N) .....Apr. 84
Potentiometer, self-balancing (E.N.)..... Mar. *128
Powdered metal processes (A).....June 178
Power—Pacific Northwest offers power and resources for industry—report. June *115
Power Show .....Dec. 110
Precision balance (E.N.) .....Nov. *126
Preform preheater (E.N.).....Oct. *140
Press, high capacity (E.N.) .....Mar. *129
Pressure—inspection of pressure vessels and piping (A).....Jan. 181
Determining needed relieving capacity for rupture diaphragms. T. S. Murphy, Jr. .....Dec. *99
Regulator (E.N.) .....Nov. *127
Rupture diaphragms; characteristics, uses, and size calculation. T. S. Murphy, Jr. .....Nov. *108
Printer, photographic (E.N.).....Apr. *128
Pyrophyllite price ceiling.....Sept. 88
Psychrometric chart for conditioning problems. Edward Ledoux (P.N.) Jan. *116
Pulley separator (E.N.).....Aug. 124

Pulp and Paper:

Chlorine use in pulp amended (N) ..... July 88
Digester pressure relation in sulphite pulping (A) .....Apr. 177
Exports of Swedish pulp dropped..... Oct. 167
Japanese tissue available.....May 86
Northwest pulp industry.....Dec. *96
Pulpwood products .....Oct. 98
Paper stockpiled .....Jan. 86
Production fixed for first quarter of 1944 (N) .....Jan. 148
Pulpwood and cordwood prices increased .....Apr. 88
Rapid method of determining moisture in wood chips. M. G. Lyon (P.N.) ..... Mar. *118
St. Regis Paper successfully bleaches groundwood. J. A. Lee.....Aug. *134
Save waste paper.....Aug. 147
Sodium peroxide bleaching of mechanical pulps (A).....May 194
Sulphate pulp bleaching flow sheet... Mar. *132
Synthetic resins in paper (A)...Mar. 180
Wanted: long fiber kraft (N).....May 82
Wood pulp allocations .....Jan. 82

Pumps:

Closed-impeller pump (E.N.)...Jan. *128
Controlled volume pump (E.N.)..Nov. 128
Devices for smoothing flow from a feeder pump. George Tauth (P.N.) ..... Aug. *123
Diffusion pump (E.N.).....Oct. *129
Double-cylinder pump (E.N.)...Nov. *128
Fire pump unit (E.N.).....Apr. *126
Improved bypass gives better filtration when using a centrifugal pump. W. A. Welch (P.N.).....June *114
Karbate centrifugal pump (E.N.)..... July *125
Liquid piston for pumping corrosive liquids. L. T. Burke (P.N.)..Apr. *116
Packing of chemical pumps. S. L. Lopata .....Dec. *104
Pump drive (E.N.).....Nov. *125
Rotary pump (E.N.).....Mar. 130; (E.N.) Oct. 138
Self-priming pump (E.N.).....Jan. *125
Purging time—nomograph. Hooks & Kerze, Jr. (P.N.) .....July 116
Putty, high adhesion (A).....Apr. 138
Putty substitute (A).....Jan. 137

Q

Quinine in Brazil (A).....Oct. 195
Quinine—synthesis of quinine accomplished (N) .....May *134

R

Raw materials:

Basic seven of the chemical industry. Smith & Palmer .....Oct. 100
Farm products—utilization as industrial raw materials. O. E. May..... Oct. *102
How cheap are cheap raw materials? F. C. Bowman.....Nov. 99
Potash, phosphate rock, fluorspar, limestone, barite, salt, coal, petroleum and natural gas.....Oct. *94
Wood—chemical engineering raw material. J. A. Hall.....Oct. *107

Rayon:

Market analysis; chemicals for rayon and cellulose and plastics. G. D. Rieber (charts & tables).....July 97
Production of rayon and synthetic fibers 1921-1943 (charts & table)... Feb. 122
Staple fiber production flow sheet... Aug. *128
Viscose staple fiber (A).....Apr. 142
Wet strength rayon (A).....Feb. 168

Reconversion:

Aid for limited reconversion (N).... Aug. 82
From war plants to cornfields (ed)... Mar. 95
Government disposal of surplus stocks and facilities—report (tables)..... Apr. *117
Postwar plans for reconditioning wartime structures. C. A. Harwick. Mar. *106
Reconversion orders .....Sept. 84
Reconversion policies (A).....July 176
Reconverting alcohol-from-flour production. Haywood, Emerson & Davis.. Feb. *125
Recorder, electronic (E.N.) .....Dec. 125
Rectification columns of wood (A)....Jan. 186

Refrigerants:

Freon refrigerant gas production increasing (N) .....Apr. 151
Fluorine compounds in organic syntheses. G. C. Finger.....June *101
Nitrous oxide as refrigerant (A).... Mar. 176
Substitutes for freon ordered used by WPB .....Oct. 88
Refrigerating device for fluids (E.N.)... Jan. *126
Refrigeration condensing units standardization restrictions removed....Apr. 88
Relays, sensitive (E.N.).....June *126

Research:

Industrial research defined (A)..Nov. 182
Industrial research—how can it be made to serve small business (chart) ..... Nov. 102
Jobs are made by research (A)..Nov. 177
Pilot plant and laboratory of Whitemarsh Research Laboratory..Oct. *158
Pilot plants—use and functions (A).. Oct. 187
Protection of research results (A)... Apr. 180
Research moves across the tracks (ed) ..... Nov. 93
Research not patentable (N)....Feb. 86

Resin:

Alcohol-soluble resins (A).Aug. 135; (A) Dec. 140
Alkyd resins (A).....Feb. 167
Alkyd resins allotments.June 86; Aug. 86
Allyl resin monomers (A).....June 138
Chlorinated paraffin resin (A)....May 152
Coating resin (A).....Oct. 154
General purpose phenolic (A)...Sept. 157
Heat stability features new group of silicone resins .....Aug. 109
High arc-resistant resin (A)....May 160
High impact phenolic resin (A)..... Mar. 140
Inter-relationship of plastics and chemicals. J. W. Raynolds..Mar. *109
Lamination resin (A) .....Dec. 138
Lewisols, film-forming materials (A).. Jan. 141
Low density resin (A).....July 142
Melamine resins (A).....Mar. 182
Methylolurea resin treatment for wood ..... May *132
Modified alkyd resins (A).....Dec. 212
Non-critical resin (A).....Aug. 142
Organo-silicon resin (A).....July 138
Phenolic resin Preference Order..Mar. 90
Phenolic-type resins (A).....Nov. 142
Phthalic alkyd resins supply for civilians .....Dec. 88
Polyvinyl alcohol resin (A).....Feb. 168
Polyvinyl resins (A).....Feb. 168
Production of plastic materials in 1943 ..... Feb. 117
Resin (A) .....Sept. 159
Resin adhesives and the new plywood program (A) .....Sept. 197
Resin chemical that removes hairs from a pig (A).....Mar. 143
Resin for steam-set ink (A).....Dec. 138
Resin of improved odor (A).....July 140
Resin plasticizer (A).....Apr. 138
Resinous bonding agent (A).....Dec. 137
Resorcinol-formaldehyde resins (A) ..... Dec. 196
Shellac substitutes (A).....July 137
Shrinkage-control resin (A).....Nov. 140
Silicone resins (A).....Dec. 137
Spray dryer plant at Bridesburg, Pa. ..... Feb. *152
Synthetic insulating resins (A)..Sept. 155
Synthetic resin (A) .....Dec. 138
Synthetic resin, Duralon (A).....May 149
Synthetic resins in paper (A).....Mar. 180
Synthetic rubber-resin (A).....May 156
Varnish resin (A).....Jan. 138
Vinyl chloride resin latex (A)....June 135
Vulcanized acrylic resins (A).....June 169
Resin board, plastic (A).....Apr. 143
Resin tape adhesive (A).....Apr. 140
Resorcinol condensation (A).....Apr. 190
Respirator facelet (E.N.).....Aug. *125

Resin:

Multiwall paper bags for packaging rosin .....Nov. *99
Production of turpentine and rosin 1943-44 (tables) .....Feb. 122
Rotenone prices .....Feb. 90

Rubber:

Achievement award to rubber industry brings commendation and challenge. Dewey & Jeffers.....Jan. *104
Amazon Basin as a source of rubber. J. A. Lee.....Feb. *140

NOTES—(A) Abstract; (c) Comment; (ed) Editorial; (E.N.) Equipment News; *Illustrated; (N) News; (P.N.) Plant Notebook

Anti-aging materials (A) ..... June 136
Buna S plant improvement (N) ... Mar. 84
Butadiene from alcohol (A) ..... Aug. 80
Butadiene plants closed temporarily (N) ..... July 145
Butylene glycol—postwar chemical or new source for butadiene? J. R. Callaham ..... Nov. *94
Calcium carbonate pigment used to reinforce rubber (A) ..... Apr. 40
Cellular rubber material (A) ..... Oct. 149
Chain modifier or regulator (A) .. Aug. 138
Chlorinated rubber (A) ..... Dec. 144
Colombia builds new tire plant (N) ..... Nov. 153
Cryptostegia from Haiti provides limited supply of rubber. J. A. Lee ..... Jan. *108
Differentiation of unvulcanized rubbers (A) ..... Apr. 188
England constructs new synthetic rubber plant ..... Feb. 182
Enough rubber if (N) ..... Apr. 84
Flameproof rubber cloth (A) ..... Aug. 140
Guayule rubber production enhanced by new process methods. H. R. Smith ..... Oct. *122
Hard rubber product from synthetics (A) ..... June 166
Improved synthetic rubber (A) ... Apr. 144
Latex insulation (A) ..... Sept. 152
Neoprene production flowsheet ... Jan. *130
New rubber regulations ..... Sept. 86
Non-metallic materials (table) .. Sept. 131
Pigment incorporation in GR-S through latex (A) ..... Oct. 185
Pilot plants for rubber polymers built (N) ..... Oct. 160
Plasticizer for rubber (A) .. May 155; May 159
Pliolite, synthetic rubber (A) .... June 135
Polysulphide rubber (A) ..... Apr. 145
Port Neches synthetic rubber (A) . Mar. 179
Postwar synthetic rubber (A) .... Sept. 84
Production of synthetic and natural rubber in 1943–44 ..... Feb. 116
Progress report on rubber production and demands ..... Apr. 148
Reinforcement of GR-S with zinc oxide (A) ..... Oct. 180
Rubber coated fabrics OPA order . Mar. 90
Rubber coating (E.N.) ..... June 126
Rubber from lactic acid (A) .... May 158
Rubber pigment (A) ..... June 136
Rubber problems (A) ..... Aug. 181

Silicone resins (A) ..... Dec. 137
Silicone rubber (A) ..... Dec. 137
Skin cream (A) ..... Dec. 138
Slide rule—friction factors read from a log-log slide rule. D. S. Davis (P.N.) ..... July 115
Slide rule nomograph. J. A. May (P.N.) ..... Sept. *137
Sludge collector (E.N.) ..... Oct. *138

Soap:
Less rosin in fat (N) ..... July 88
Price ceiling ..... Sept. 88
Raw material shortages overcome by the soap industry—consumption, manufacture ..... Aug. 110
Synthetic organic soaps (A) ..... Oct. 88
Synthetic soaps (A) ..... Dec. 216
Society of the Plastics Engineers meeting (N) ..... Feb. 177

Soda Ash:
Ammonia soda process 1943 (table) ..... Feb. 131
Briquettes of soda ash (A) ..... Aug. 140
Natural production 1943 (table) .. Feb. 131
Production of soda ash in 1924–1943 (charts) ..... Feb. 112
Sodium bichromate and chromate production 1943 (table) ..... Feb. 132
Sodium bicarbonate, refined production 1943 (table) ..... Feb. 132
Sodium chlorate, electrolytic, flowsheet ..... Nov. *130
Sodium cellulose glycollate (A) .. Mar. 139
Sodium cyanide critical (N) ..... July 88
Sodium furoate (A) ..... Nov. 138
Sodium hydroxide, electrolytic process production 1943 (table) ..... Feb. 132
Sodium methylate, dry (A) ..... Nov. 138
Sodium peroxide bleaching of mechanical pulps (A) ..... May 194
Sodium phosphate, dibasic production 1943 (table) ..... Feb. 132
Sodium phosphate, monobasic production 1943 (table) ..... Feb. 132
Sodium phosphate, tribasic production 1943 (table) ..... Feb. 133
Sodium silicate, liquid production 1943 (table) ..... Feb. 133
Sodium sulphate, anhydrous, refined 1943 (table) ..... Feb. 133
Sodium sulphate, glauber salt and crude saltcake 1943 (table) ..... Feb. 133
Softener and plasticizer (A) ..... Apr. 137
Soil stabilizer (A) ..... Apr. 137
Solar heat evaporates potassium chloride from brine. H. R. Smith ..... Dec. *84
Solder, fluxed wire (A) ..... Feb. 172
Soles for shoes of synthetics (A) .. Nov. 144
Solvents—control over solvents .... Nov. 88
Solvents from farm residues (A) .... Oct. 180
South Africa—export surplus of lactic acid ..... Feb. 187
Southern Rhodesia—industrial alcohol plant (A) ..... Nov. 161

Soybeans:
Lacquer from soybeans (A) ..... June 136
Production of soybean oil rises in 1943 (chart) ..... Feb. 125
Products from soybeans ..... Oct. 97
Soybean fiber (A) ..... Jan. 138
Soy oil edging in (N) ..... Feb. 84

Spain:
Large olive crop ..... Nov. 161
Muriate of potash output increased ..... Dec. 166
New technical research institute . Oct. 166
Olive oil shipments increase ..... July 154
Potash production cut down ..... Jan. 160
Tanning materials scarce ..... July 154
Spectrometric gas analysis (A) .... Aug. 176
Spectrometry (A) ..... Dec. 198
Speed reducer (E.N.) ..... Oct. *138; (E.N.) Nov. *126
Standard Oil Development celebrates silver anniversary ..... Nov. *100
Starch—preparation of starch acetate (A) ..... Feb. 205

Steel:
Electrogalvanizing of strip steel (A) ..... Feb. 210
Heat-resistant steels (N) ..... Feb. 88
Hennig purifier for steel (A) ..... Aug. 141
More steel is alloyed ..... Apr. 113
Titanium in steel (A) ..... Nov. 189
Storage underground (ed) ..... Mar. 15
Strainer, liquid line (E.N.) ..... July *126
